

## **PRESS RELEASE**

### **KENYA AIRPORT AUTHORITY ICT CHANGE MANAGEMENT PROGRAM**

**NAIROBI, 1<sup>st</sup> August 2008 .**

ICT has become essential in many aspects of our lives. It is changing how we communicate, learn and seek entertainment. Our work place is no exception. Kenya Airports Authority is ensuring that it is not left out in this technological world. Technology has become increasingly essential in the needs of the society and the growth of the global organisation in terms of rendering goods, services, Knowledge and expertise. This has necessitated the need of change in how we do our daily operations. Effective change management cannot therefore be underestimated and its implementation needs considerable acceptance by the employees' with special commitment from senior management.

Kenya Airports Authority has tendered for proposals for the supply, installation implementation and commissioning of integrated enterprise resource planning system (ERP)

The Intergrated ERP system will cater for Kenya Airports Authority Headquarters, Jomo Kenyatta international Airport, Wilson Airport, Wajir Airport, Lokichoggio Airport, Moi International Airport, Ukunda Airstrip, Malindi Airport, Lamu/Ukunda Airstrip, Eldoret International Airport and Kisumu Airport

Our objective is to automate all business process in the authority. This will provide business process improvement and simplification aimed at achieving a more effective and efficient business process throughout KAA
